1. (S/NF/SK) Statistics:

Viewer: 018
 Session date: 7 DEC 88
 Start time: 0815
 End time: 0927
 Mode of operation: SOLO
 FI: Sleepy
 AV: None

2. (S/NF/SK) Cuing: 6-digit encrypted coordinates: 993777/100799.

3. (S/NF/SK) Tasking: Describe the target of interest.

4. (S/NF/SK) Results:

a. This target was worked yesterday, but the session was aborted, due to problems staying "on target" (see Session Summary for 6 DEC 88 session).

b. The site was located, but "doorknobbed", in that only details were perceived, not overall perceptions.

c. The site is located in cold, open land, and there is a pertinence to one section in which an area having an underground feeling is located. The underground area appeared to be a square "tunnel", with motion leading downward, then straightening out into a flat area. The far end of the flat area of this "tunnel" is blocked (see sketch, page 4 of the session transcript).

d. ~~Attempting to identify the site, I had strong impressions of a~~
~~creature or person who was somehow buried and being unearthed. There was~~
~~also a repeating visual impression of a place name in bas relief on stone,~~
~~the shadows of the letters being all that were visible (see pencil sketch,~~
~~bottom of page 6). The place name as perceived, made no sense to me, at all.~~
